

The **Heinrich Frey Family Association** only accepts as members people who can show that they directly descend from Heinrich Frey (1663-1734) and his wife, Anna Catherine Levering Frey (1667-1754). In order to do this, you must complete the attached application form in full (page 1) and the supporting information on page 2.

DNA test results, even y-DNA, alone, are not sufficient. You must show your lineage.

With every ancestor of yours, you need to provide the source where you got this information from as well as the years of birth (and death) and marriage of that person to the best of your ability. **The HFFA is not able to do your research for you.** You must provide sufficient information for us to verify that you are eligible for membership. It is important that you provide as many generations as you possibly can.

If we have questions about your lineage, we will get back to you for more information.

Do you have a blood relative who is a member of the HFFA? If so, please provide their name and relationship.

name _____ relationship to you _____

When completed, mail all pages of your application together with your check for \$25.00 made payable to HFFA to:

Rebecca Proffitt
61 Hel-Mar Dr.
Mitchell, IN 47446

Please print legibly

Lineage from Heinrich Frey
